

HIT + RUN

HIT + RUN

HIT+RUN, The Originators of Live Screenprinting, was created in 2005 by Southern California artists Brandy Flower & Michael Crivello. A product of the contagious enthusiasm they had seen at small silkscreening parties in their homes, HIT+RUN's live T-shirt printing events quickly grew into the world's premier live interactive screenprinting experience.

Guests personally select their own combination and placement of designs on the shirt, with each graphic solely available during the one-time activations. Attendees personally interact in the screenprinting process on-site with the HIT+RUN Crew to create one-of-a-kind pieces of wearable art.

Appearing at over 2500 events around the globe, ranging from parties with *LEVI'S*, *NIKE*, *MICROSOFT*, *LEXUS*, *TARGET*, *FOX*, *VANS*, *PEPSI*, *TIDE*, *AOL*, *RED BULL* and *MTV*, the live screen printing is always the center of interest. Guests stand in awe for hours as the HIT+RUN Crew juggles a collection of rare imagery.

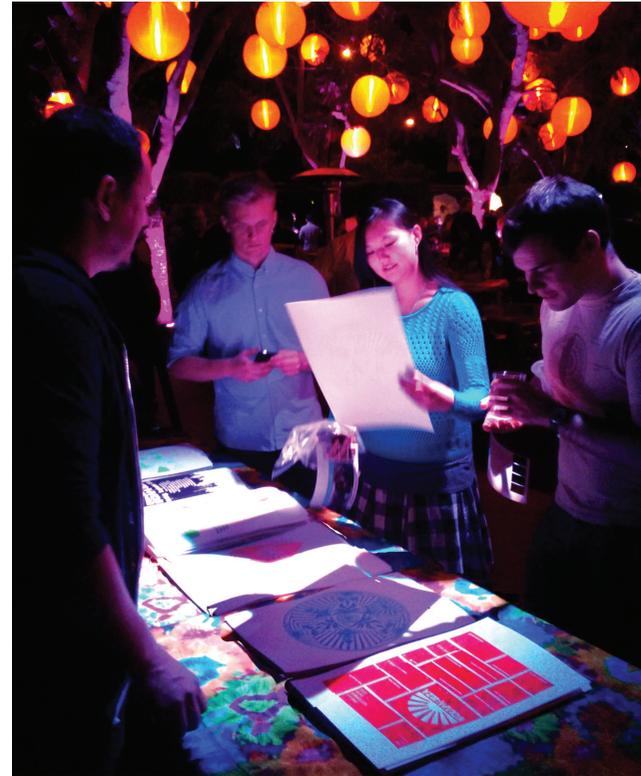

Most HIT+RUN sessions generate silkscreened *T-shirts, tote bags or posters*, with past events also including custom name personalization and shiny metallic foiling on a variety of *bandanas, hoodies, sweatshirts, aprons, neckties, jerseys, beer koozies, record jackets, underwear, jeans, patches & scarves*.

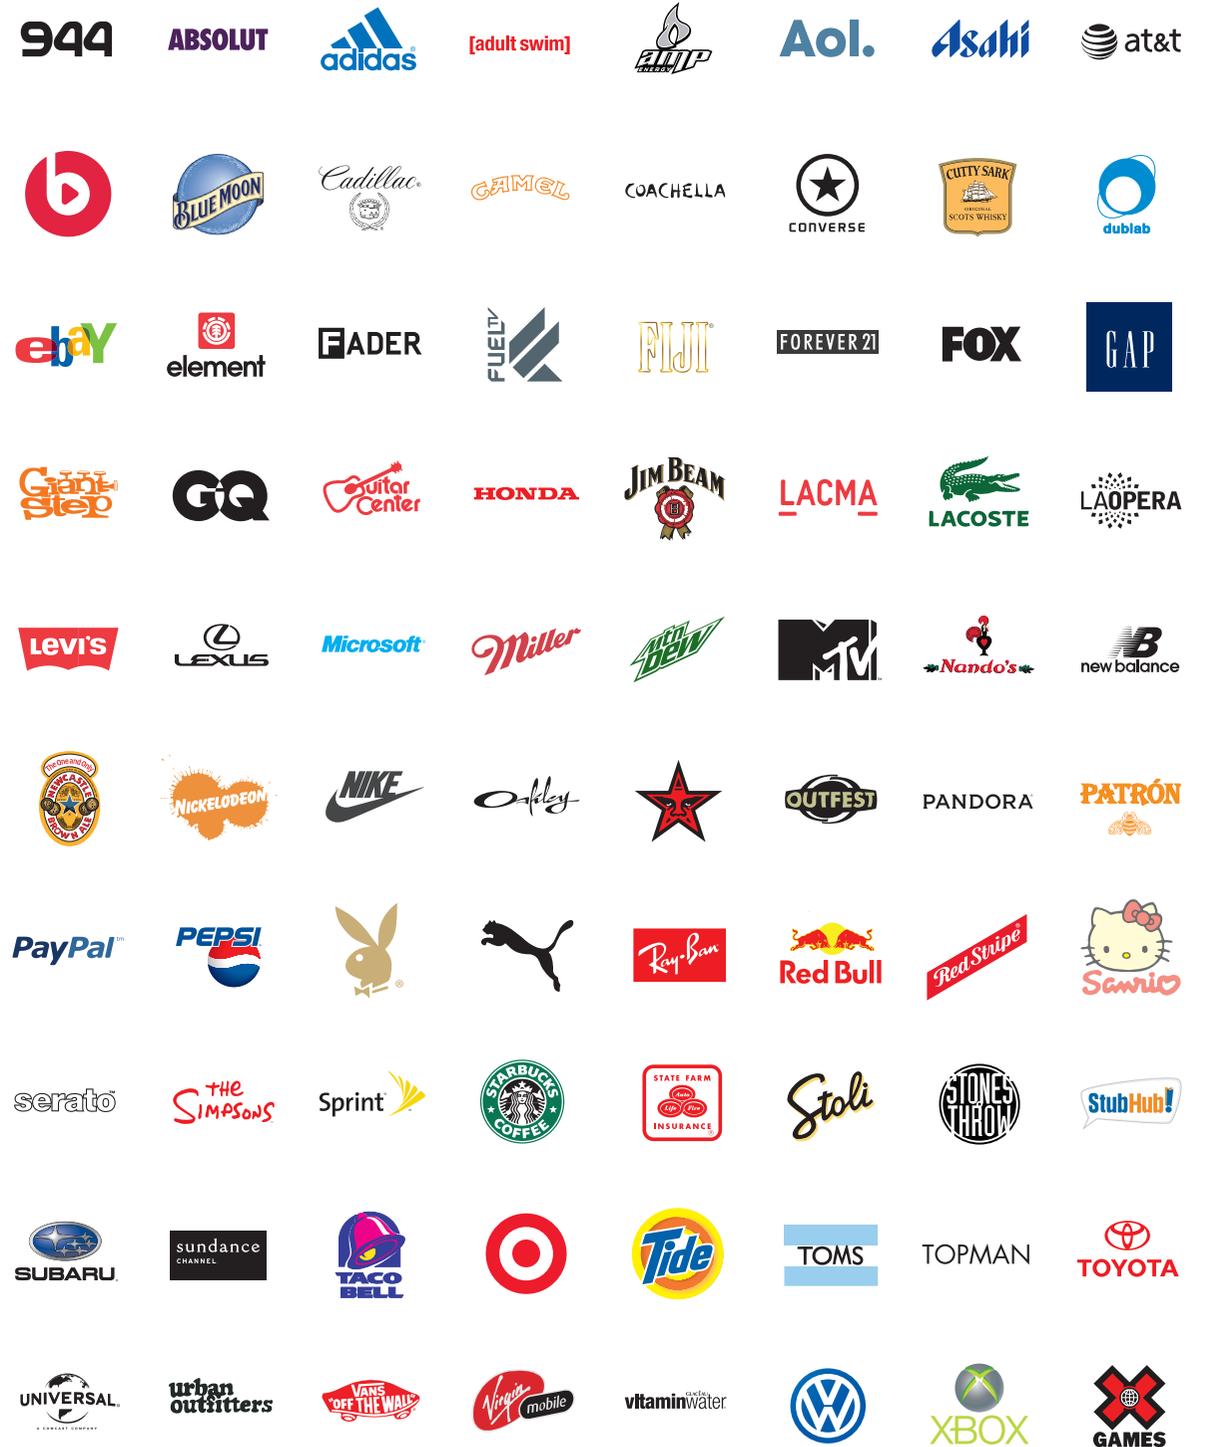

With multiple teams based in LOS ANGELES, NEW YORK CITY, LONDON, MELBOURNE, AUCKLAND, TEL AVIV, DUBAI & DETROIT, the HIT+RUN Crew travels easily across the globe with their magic mobile screenprinting studio. All of their custom-made silkscreening gear fits into standard suitcases to be easily transported and set-up anywhere in the world.

H+R has activated live screenprinting at *trade conventions, music & film festivals, concerts, pop-up shops, VIP lounges, private gifting suites, product launch events, in-stores, movie & television premieres, street fairs, art openings, birthday parties, anniversaries, bar mitzvahs and youth workshops*.

Each HIT+RUN event is unique, most run typically 3-5 hours in duration. Beforehand, HIT+RUN creates six unique silkscreens based on the event. The client can provide final art or work with the H+R design team to come up with the perfect combination of imagery (at no extra cost). At the event, guests choose any combination of the six designs to create a custom item live-on-the-spot. The garments are ready-to-wear and completed in under 1-3 minutes each.

All of the printing equipment, screens, ink, supplies and working Crew are provided in each package, although blank T-shirt costs are not included (due to individual needs & quantities). Periodically the client will supply the garments, but H+R can also purchase any style and quantity of blanks. HIT+RUN can acquire various brands of T-shirts, tote bags, poster stock and more.

One HIT+RUN printer can screen print approximately 75qty items per hour. All of the equipment is hand-operated, safe, clean, compact and travels conveniently with no special load-in necessary.

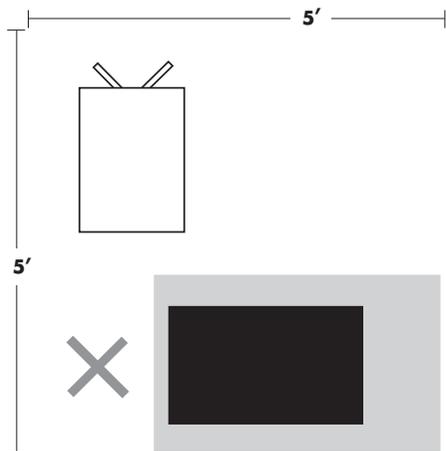

INCLUDES: • SCREENPRINTING PRESS (in black) • FLASH DRYERS (in white) • WORKING CREW (x)

REQUIRES: • ELECTRICITY (see below) • TWO TABLES (4 X 6ft OR 4 X 8ft) • AREA FOR T-SHIRT DISTRIBUTION • LIGHT (night) OR SHADE (day)

SINGLE

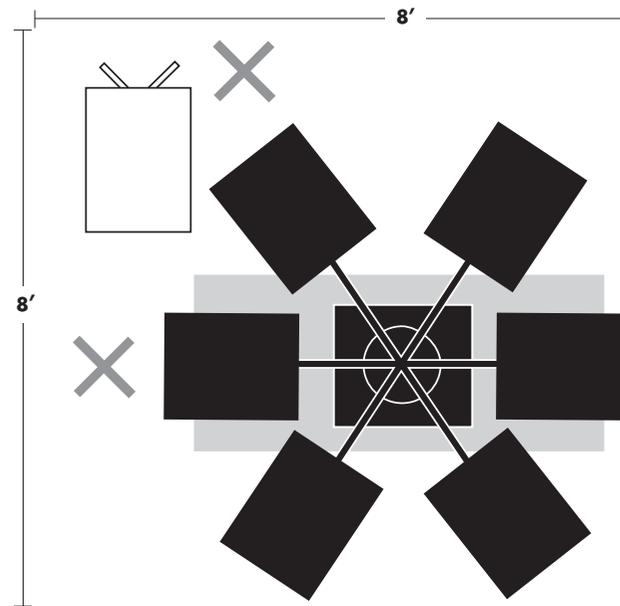

SINGLE : Electricity requirements

ONE 15-AMP CIRCUIT (within 4 ft of printing area)

*FLASH DRYER: Unit pulls 14.4amps (1600watts) of standard 110v electricity

COMPACT

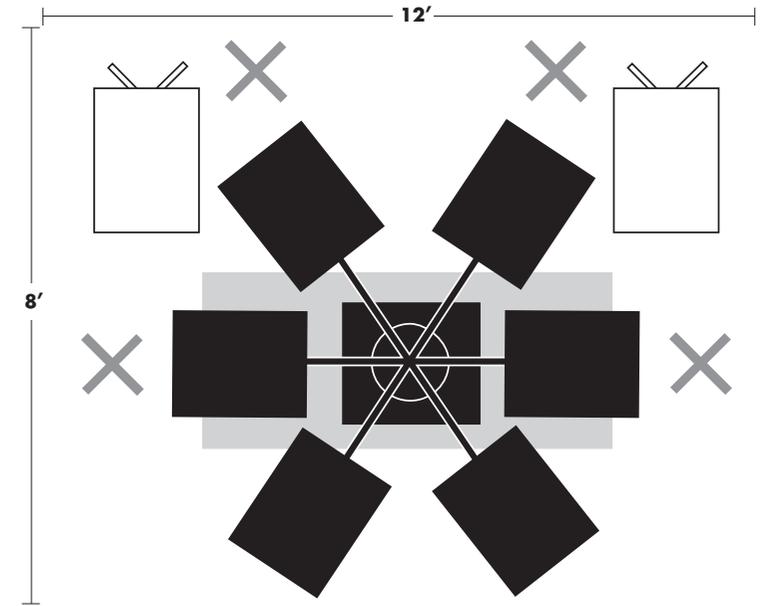

COMPACT : Electricity requirements

ONE 15-AMP CIRCUIT (within 4 ft of printing area)

*FLASH DRYER: Unit pulls 14.4amps (1600watts) of standard 110v electricity

STANDARD

STANDARD : Electricity requirements

TWO 15-AMP CIRCUITS (within 4 ft of printing area)

*FLASH DRYER: Each unit pulls 14.4amps (1600watts) of standard 110v electricity
